Guarantee + Transport And Packaging

## CUSTOMS EXPORT AND OVERSEAS PACKAGING

As Plus Packing , we cover the boxes with Aluminum barrier foil which provides excellent corrosion protection for overseas shipments and long-term storage. It prevents products from coming into contact with moisture and during shipping. In dry type packages, vacuum packaging is done with desiccant in the appropriate amount according to shipping and waiting times. The vacuum provides full protection against rust and corrosion for 24 months with the maximum reduction of the air in the interior and the addition of a sufficient amount of protection.

# WOODEN PACKAGING PRODUCTS FOR EXPORT AND INDUSTRIAL PURPOSES
